WATER RESISTANT

Styles that we developed thinking of your client's special needs.

This mini collection is our response especially for the people that often have contact with moist, rain and snow*, as it's made with special water proof leathers*. To increase your protection ask for NimcoTex lining. This membrane is put in between the upper leather and the lining of the shoes, creating a barrier between bad environmental conditions and your feet. Enjoy your Nimco Made4You shoes, and don't let a little rain, get in the way of your comfort!

** Our Water Resistant Collection, is not waterproof although.*
